The Rovic® RV3J is a junior sized three wheel cart designed full of features. The RV3J can accommodate most junior bags from 26” to 30” bag size and also keeps it in place when the cart is folded.

The RV3J shares the Clicgear Accessory Tab system allowing the use of the many Clicgear standard accessories with this cart. The RV3J uses an easy one step folding system and the front wheel is fully adjustable to allow for perfect tracking throughout the life of the cart. Large 13” rear wheels make this cart very easy to push for smaller golfers as well.

“Pushing the best golf push carts can save energy during play. Additional energy leads to improved focus on shots and to improved scoring”
- Shawn Plain (Director of Golf—Oakridge Golf Club)
